

QUALITY AND ENVIRONMENTAL POLICY

ARTYPLAN, with more than 50 years of experience in the printing industry, considers service quality to be a fundamental element of its business.

ARTYPLAN has implemented a Quality and Environmental Management System based on the requirements of UNE-EN ISO 9001:2015 and UNE-EN ISO 14001:2015, with the aim of achieving continuous improvement, maximizing customer satisfaction, and ensuring environmental protection throughout the company's activities, which consist of:

GRAPHIC DESIGN, PRINT PRODUCTION SERVICES, AND DIGITALIZATION

Our policy is built on the following pillars:

1. Regulatory Compliance and Environmental Commitment We ensure compliance with all applicable legal and regulatory requirements, including sustainability and environmental responsibility, reflecting our commitment to environmental protection in collaboration with our customers and suppliers.

We promote the responsible use of resources and the proper management of waste.

2. Market Consolidation We strengthen our market presence by identifying new market opportunities and enhancing collaborations with social foundations and suppliers, reinforcing our service offering and increasing our visibility.

3. Operational and Financial Efficiency We minimize errors in service delivery through process digitalization and inventory management optimization. We also improve our relationships with suppliers and customers, ensuring the financial stability necessary to support sustainable growth.

4. Continuous Improvement We promote continuous improvement through employee training and the regular review of our quality and environmental objectives, ensuring our ability to adapt to changing market needs.

The Management of Artyplan is committed to communicating this Quality and Environmental Policy to all company employees, ensuring that it is understood and implemented throughout the organization. Likewise, this policy is made available to customers and all other interested parties on our website (www.artyplan.com).

Management, together with the person responsible for the established Quality Management System, is responsible for periodically reviewing the system to ensure and maintain the effectiveness and efficiency of our services. Management also reviews this policy regularly as part of the management review process, taking into account changes in the business environment and feedback from interested parties. Furthermore, Management provides the human, technical, and financial resources necessary to achieve the established objectives.
